About the Authors

Gregory Wong is the Founder and Principal Analyst of Forward Insights. Greg has in-depth knowledge of the cost, performance and markets and applications of multi-bit per cell NOR, NROM and NAND flash memories, emerging memories and solid state drives. Greg previously held a number of management positions in strategic planning, business development and engineering at Hitachi, Siemens, ProMOS and Qimonda/Infineon. At Infineon/Qimonda, Greg was responsible for driving manufacturing efficiencies and investment planning for a DRAM fab in Taiwan. Subsequently, he became responsible for competitive intelligence and reverse engineering for flash memories focusing on flash memory vendors' strategies, process technologies, design architectures, product performance, manufacturing capabilities and costs.

Greg has authored/co-authored numerous market and technology reports on NAND flash memories, 3D NAND, phase change memory (PCM), MRAM, emerging memory technologies and solid state storage. He was also a contributor to [Inside NAND Flash Memories](#) and [Inside Solid State Drives](#).

Greg earned his B.A.Sc. degree in Electrical Engineering from the University of Toronto, and his M.B.A. degree from the Richard Ivey School of Business in London, Ontario.

About Forward Insights

Forward Insights provides independent, insightful market research, consulting and information services focusing on semiconductor memories and solid state storage. The company offers unparalleled depth and understanding of the strategic, market and technical complexities of the semiconductor memory landscape.

Services

Forward Insights offers a unique and comprehensive strategic, financial, market and technical perspective on the semiconductor memory industry. The professional services offered include:

- Strategy Consulting
- Financial & Cost Analysis
- Market Forecasts
- Technology Analysis
- Competitive Analysis
- Surveys
- Training
- Custom projects
