EXECUTIVE SUMMARY9

FLASH MEMORY PRODUCT TRENDS..... 10

 Overview 10

 Storage Capacity 15

 Roadmap 15

 SPI NAND 17

 Market for SPI NAND..... 18

APPLICATIONS FORECAST 25

 Market Overview 25

 Mobile Phones..... 31

 Consumer 36

 Flat Panel TV..... 39

 Set Top Box..... 41

 Blu-ray Players and Recorders 43

 Digital Still Camera and Single Lens Reflex Camera 45

 Printers 46

 Gaming (Handheld and Consoles) 47

 Digital Picture Frame 49

 Other Applications..... 50

 Industrial and Networking 51

 Network Switches..... 53

 Routers, Gateways 54

 Industrial PC, HMI (operator interface)..... 56

 Industrial Controls (PLC, PLC/HMI, PAC) 57

 Compact Flash 58

 POS, Biometrics..... 59

 Other Applications..... 60

 Automotive..... 60

SUPPLIER STATUS..... 63

 ATO Solutions, Inc. 63

EON Silicon Solutions, Inc.	63
GigaDevice.....	63
Macronix International.....	63
Micron Technology	63
Powerchip Technology	63
Samsung Electronics	63
SK Hynix.....	64
SMIC.....	64
Spansion.....	64
Toshiba	64
Winbond Electronics	64
APPENDIX	66
SLC NAND ECC, Endurance, Retention vs. Technology Nodes	66
XIP vs. Store and Download Architecture	68
SPI NAND	69
SPI Interface.....	69
What is SPI NAND/Serial NAND?	72
Benefits of SPI NAND	73
SPI NAND Performance	73
REFERENCES	77
ABOUT THE AUTHOR.....	78

About the Author

Gregory Wong is the Founder and Principal Analyst of Forward Insights. He has in-depth knowledge of the technology, cost, performance, competitive landscape, and markets and applications of multi-bit per cell NOR, NROM and NAND flash memories, emerging memories and solid state drives.

Greg has authored/co-authored numerous market and technology reports on NAND flash memories, 3D NAND, phase change memory (PCM), MRAM, emerging memory technologies and solid state storage. He was also a contributor to [*Inside NAND Flash Memories*](#) and [*Inside Solid State Drives*](#).

Greg previously held a number of management positions in strategic planning, business development and engineering at Hitachi, Siemens, ProMOS and Qimonda/Infineon. At Infineon/Qimonda, Greg was responsible for driving manufacturing efficiencies and investment planning for a DRAM fab in Taiwan. Subsequently, he became responsible for competitive intelligence and reverse engineering for flash memories focusing on flash memory vendors' strategies, process technologies, design architectures, product performance, manufacturing capabilities and costs.

Greg earned his B.A.Sc. degree in Electrical Engineering from the University of Toronto, and his M.B.A. degree from the Richard Ivey School of Business in London, Ontario.

About Forward Insights

Forward Insights provides independent, insightful market research, consulting and information services focusing on semiconductor memories and solid state storage. The company offers unparalleled depth and understanding of the strategic, market and technical complexities of the semiconductor memory landscape.

Services

Forward Insights offers a unique and comprehensive strategic, financial, market and technical perspective on the semiconductor memory industry. The professional services offered include:

- Strategy Consulting
- Financial & Cost Analysis
- Market Forecasts
- Technology Analysis
- Competitive Analysis
- Surveys
- Training
- Custom projects
